

Kipling Strategic Income Fund

as at March 31, 2021

CUMBERLAND
Private Wealth

Key Benefits

Provides a **steady income stream** through fixed income investing.

Capital preservation while **mitigating risk exposure** from both an interest rate risk and credit risk perspective.

Diversified portfolio of bonds by sector, issuer and maturity.

Canadian corporate bond new issuance totalled about \$15.9B for the month vs. \$10.5B in Mar 2020. The yield curve moved anywhere between -5bps to 22bps with the long-end part of the yield curve steepening the most. Corporate spreads were wider 2bps to 6bps post the Bank of Canada announcement in late February of the non-renewal of the Corporate Bond Buying Program to expire in May and supply in general putting pressure on spreads. The bond universe returned -149bps, the corporate bond index returned -104bps, while the short bond index returned +9bps. Canadian High Yield returned +18bps. The Fund performed well from its holdings in energy, Chorus Aviation, Transcanada Trust and shorting of Government of Canada bonds.

The cumulative return shown is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the investment fund or returns on investment in the investment fund. The Kipling Funds are only available for sale to investors who meet the definition of "accredited investor" or who are purchasing under the "Offering Memorandum" exemption, in either case as set forth in National Instrument 45-106 Prospectus and Registration Exemptions, or non-individuals who will be investing a minimum of \$150,000. Please contact us or consult the offering documents to determine your qualification status. Investors should take note that certain statements in this report about a fund or strategy, including expected future performance, are forward-looking. Statements that look forward in time or include anything other than historical information are subject to risks and uncertainties, and actual results, actions or events could differ materially from those set forth in the forward-looking statements. Although the forward-looking statements contained herein are based upon what the portfolio manager believes are reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements. Due to ongoing portfolio transactions, the positions discussed in this communication may no longer be held in the Fund. Cumberland Investment Counsel Inc. (CIC) provides this commentary to clients for informational purposes only. The information contained herein is based on sources that we believe to be reliable, but may change without notice. The comments included in this document are general in nature, and professional legal, accounting, tax and investment advice regarding an individual's particular investment needs and circumstances should be obtained. This presentation does not constitute an offer to sell or solicitation of an offer to buy a security in any jurisdiction. Past performance is not indicative of future results. Cumberland Private Wealth Management Inc. (CPWM) is a Member of the Investment Industry Regulatory Organization of Canada and is a Member of the Canadian Investor Protection Fund. Cumberland Private Wealth is the registered trade name for CPWM and CIC. The Fund is managed by CIC pursuant to an Investment Advisory Agreement entered with NCM Asset Management Ltd. (NCM), the Manager. CIC and CPWM are affiliates of the Manager as they are each wholly owned by Cumberland Partners Limited.

Series M	2.3%	5.3%	7.2%	2.6%	4.8%	2.8% ²

2. Partial Year

1. Annualized return. 2. 2016 Return begins at Fund inception. 3. Portfolio Metrics are sourced from CapitalIQ. 4. Portfolio Statistics are calculated on Series M since inception. 5. Benchmark: 50% FTSE Canada Universe Bond Index/50% FTSE Canada IG Corporate 1-5Y Index (100% Long). The benchmark represents the primary investment universe of the Fund, but may have a longer duration relative to the Fund's bond allocation which has a short duration bias. The Fund may also invest, to a lesser extent, in money market bonds or equivalents, high yield bonds, convertible bonds and preferred shares which are not represented in the benchmark. 6. Risk level is determined using the Fund's ten-year standard deviation. If a Fund does not have ten years of performance history, the risk level is calculated using the Fund's actual return history and the return history of its benchmark (which is expected to reasonably approximate the Fund's standard deviation) for the remainder of the ten year period.
